

CLAUDIA LUPI, PHD

Assistant Professor in Paleontology and Paleoecology at the Earth and Environmental Science Department, University of Pavia.

PERSONAL INFORMATION

POSITION: December 2010 - Assistant Professor in Paleontology and Paleoecology at the Earth and Environmental Science Department, University of Pavia.

EDUCATION:

16th of January, 2007. PhD at the University of Pavia.

Subject: "Calcareous nannoplankton and its relationships with the climate system in the Pleistocene Oceans" Supervisor Prof. Cobianchi Miriam

16th of February 2007. Graduated at the Institute for Advanced Study of Pavia (IUSS - SAFI)

20th of March 2003. Master degree in Geology at the University of Pavia. Subject: "The Cretaceous Oceanic Anoxic Events in the Gargano Promontory (South Italy).

Supervisor Prof. Cobianchi Miriam

RESEARCH PROFILE AND INTERESTS

Dr Claudia Lupi is currently working in the Micropaleontology Research Group of the University of Pavia (Italy). She is calcareous nannofossil specialist and I have studied successions from different geographic and oceanographic settings from Cretaceous to Pleistocene. The main goal is to interpret the geological events highlighting the relationships between physical and biological signals documenting, therefore, the usefulness of the micropaleontological data in the Earth science studies. At present, her research is focused on Plio-Pleistocene nannofossil associations to reconstruct the timing and the modalities of the nannofossil reactions to the Mid-Pleistocene Transition and to the

and stages). Each year, she holds several conferences for undergraduate students regarding palentology, fossilisation process, application of calcareous nannofossils as paleoceanographic tools.

- From October 2006 to Present. Supervisor of bachelor, master and PhD thesis
- From October 2005 to Present. Tutor for the bachelor course of "Paleontology" for students on Geological Sciences and Sciences and Technologies for the Nature at the University of Pavia.

AFFILIATIONS:

International Nannoplankton Association (INA)

Italian Association for the Quaternary Study (AIQUA)

Italian Geological Association (SGI)
